

Pam &gt;

Tow trucks...to confirm is the this now going through EOC to make the request to the US? If so (that was my understanding), we will need notice to coordinate logistics via the port to have them moved either through the tunnel, bridge or maybe over the barge (GM will be using the barge tomorrow for auto parts). Hoping the Ops Centre could reach out to Sydney or Joe to go over this?

Cbsa Commercial Offsite Warehouse: if police resources could secure the compound, this would provide you an area to stage the tow trucks and/or drop off/store towed vehicles.
